STATUS REPORT ON FPA SUPPORT TEAMS FOR PRESIDENTIAL SUCCESSORS

1. The DDCI approved the Group B list of CIA nominees. That group is representative of agency-wide activities. Those officers selected are being informed today by their own component chiefs.

2. I am delivering the CIA names to FPA today. Also, I will pass a working draft to FPA (per their request) on the proposed responsibilities of the DCI representatives on the support teams. This draft only highlights pre-attack responsibilities and clearly assumes that CIA expects all-source communications at the relocation sites. [ ] STAT  
[ ] assisted me in this and the draft has [ ] STAT  
approval as a working document.

3. FPA informs me other departments have similar difficulties in setting forth what their reps can accomplish in wartime. I have the impression that our draft will serve to meet the deadline. The communications issue is clearly the priority item at the next interdepartmental meeting.
